SHOW ROOM

THESE photographs will evoke familiar scenes and faces in the minds of many of our patrons. Many of them indeed have come time and again to our display-room during the not altogether easy process of selecting suitable fixtures.—Quite often, in this way, agreeable and friendly relations have been established between the customers and the company during these twenty years of our service to the public.

The dreams, thoughts, plans and hard work, which have during these years brought our house to its present state of prosperity and usefulness, have been rewarded by the genuine appreciation and approval given us from the beginning by these many clients, who chose to become our friends.

Something unique and highly decorative

THIS new line is modeled in the manner of hand-wrought iron. Bold in detail, balanced in proportions, there is a freedom in designing that is in keeping with the modern interpretation of beauty. Cast in ferro metal and finished in Swedish Iron with beautiful contrasts in old gold. A great line of unusual distinction that immediately captures the eye of home-makers and decorators.

The complete line of these Fixtures are shown on pages 12, 13 and 14.
